HARDCORE KNIVES. HARDCORE LIVES.

KA-BAR® KNIVES

We wouldn't tell you to buy a KA-BAR® knife because of its military heritage or because it's a legend in the world of knives.

We wouldn't tell you to buy a KA-BAR® because it comes from an American company with more than a century of knife making experience.

And we wouldn't tell you to buy a KA-BAR® knife because of its resistance to corrosion, tested strength, unmatched edge holding ability and out-of-the-box razor sharp blade. Because there's only one real reason to buy a KA-BAR®.

When it comes down to it and you're all alone and your survival depends on a knife, you're going to want a knife you can trust. A knife that won't fail you. A knife that has proven itself time and time again.

You can buy any knife or you can own a KA-BAR®.

When you see this icon, know that these KA-BARs are being made by family, friends and neighbors right here in the USA.

We are proud of our heritage and continue our legacy with the KBD Master Series. The KBD Master Series is a collection of KA-BAR® manufactured knives designed and authenticated by the leading outdoorsmen, survivalists, uniformed professionals and military experts in the U.S. To see the KBD Master Series and our full product line visit us at KA-BAR.com.

SINCE 1898

KA-BAR traces its roots to the Brown Family in the 1890s. Wallace and Emerson Brown were cutlery salesmen who saw an opportunity to enter the knife making business. Their first venture, Brown Brothers Razor, failed, and they returned to cutlery sales. With help from their father, John Brown, the Brown brothers soon had another opportunity to return to the knife making business.

The Browns acquired the Tidioute Cutlery Company in Tidioute, PA. They would begin to use the name Union Razor, and eventually, Union Cutlery Company. In the 1910s the company was moved to Olean, NY, where it continues to operate today.

HARDCORE KNIVES. HARDCORE LIVES.

120 YEARS

Logos and imagery are an important part of the KA-BAR® story. From the Dog's Head – which has been used since the early 20th Century, though for unknown reasons – to the iconic North American “The Union” shield, KA-BAR® has always had a strong visual presence. The most famous is the “Kill A Bear” logo, which illustrates an important part of how KA-BAR® got its name.

This year marks KA-BARs 120th anniversary. We're celebrating by offering this laser engraved commemorative knife that features our world famous brand name, “KA-BAR®”, a roaming bear and “The Union” shield presented in a Victorian-era style logo.

OUR MOST FAMOUS KNIFE

On December 9, 1942, Union Cutlery submitted the 1219C2, USMC KA-BAR knife pattern to the United States Marine Corps in hopes that it would become general issue to that branch of the military.

After some refinements to the original design, the USMC KA-BAR knife became so well recognized for its quality that “Kabar” became the name by which many referred to this knife pattern.

Today, the original USMC Fighting and Utility Knife remains the first choice for many men and women of service who carry it as their personal knife option.

THE STONE KNIFE

As war raged in the Pacific Theater, many Marines' equipment succumbed to the harsh conditions of jungle warfare. Exposed to salt water, rain, extreme heat and humidity, some USMC KA-BAR handles were left devastated. Enter Eugene Stone.

Stone created a mold to cast metallic handles for the knives, whose blades were still in excellent working order. Stone didn't use just any material for the handles. In a display of resourcefulness, Stone cast the handles from scrap material from a variety of downed Japanese aircraft.

FAMOUS SINCE 1941.

To contribute to the American war effort during World War II, John Ek employed disabled Americans and produced six models of knives beginning in 1941.

The "Ek Commando Knives", as he referred to them, were designed for close quarters and were quickly adopted by the US Marine Raiders, US Army Rangers, First Special Service Force and Office of Strategic Services Operational Groups.

Americans have since carried Ek Commando Knives in World War II, Korea, Vietnam, Afghanistan, Iraq and countless other locations in between.

DESIGN EVOLUTION

It's tough to argue with the success of the world's most recognizable, time-tested fixed blade knife so we did what any smart company would do, we didn't change the original design, we expanded upon it.

The high carbon, non-reflective black blade is epoxy powder-coated and tests prove the finish is more durable than ever. The classic oval shape of the original KA-BAR® remains and has been modernized with Kraton G®, a material nearly impervious to sweat, chemicals, water and wear.

THE LEGEND

“K’d A Bar” were the words of an Alaskan hunter who was mauled by a Kodiak bear and wrote the company to share his story. As he explained it, his gun jammed and the hunter used his Union Cutlery knife to successfully defend himself against a wounded bear. In the process, he killed the bear, or “K’d A Bar”.

The leadership of Union Cutlery - the predecessor to KA-BAR® - was so impressed and honored by the hunter’s letter, they adopted KA-BAR as a trademark to be used on a variety of Union Cutlery hunting knives.

At the beginning of World War II, the United States Marine Corps fighting/utility knife was also marked with this trademark. Then, in 1952, the company name was officially changed from Union Cutlery to KA-BAR®.

MSRP: **\$10.35**

KA-BAR
MASTER SERIES

KA-BAR® proudly offers the TDI knife collection, a series of design collaborations with Tactical Defense Institute President and Chief Instructor, John Benner.

Only a 33-year veteran police Lieutenant could truly understand what makes a knife effective for close-quarters defense. Benner set out to design a low profile fixed blade knife for law enforcement, military and security personnel that could be drawn quickly and efficiently in times of duress.

The same basic principles that founded the first TDI knife were incorporated into all future TDI models, which now complete an expansive line of tactical knives.

K&B
MASTER SERIES

JAROSZ

We are proud to have custom knife maker, Jesse Jarosz, on our team of designers. Jesse spent his childhood days hunting, fishing, and trapping in the Nebraska wilderness.

The Jarosz family has a long and proud tradition of working with their hands to produce quality products, from woodworking to general carpentry. Jesse utilized his family's knowledge, work ethic and access to equipment at a young age to start making items of his own. It wasn't long before Jesse began making custom knives and ultimately founded Jarosz Knives.

Soon after, KA-BAR recognized Jesse's talent for knife making and design and partnered with him to produce the products you see here.

Blade Length: 7.25"
Blade Width: 1.75"
Overall Length: 12.75"
Sheath: 5600S

Item: #5600
MSRP: \$84.21

Made from 0.25" 1095 Cro-Van steel
Bonus Blade - #5599 Knife Only

**Adventure®
Parangatang®**
Cordura® Sheath (MC)

Blade Length: 14.125"
Blade Width: 1.875"
Overall Length: 19.625"
Sheath: 5603S

Item: #5603
MSRP: \$98.95

Made from 0.188" 1095 Cro-Van steel

KBD
MASTER SERIES

We are delighted to offer Snody Knives designed by custom knife maker, Mike Snody.

Mike prides himself on producing world-class, investment grade cutlery for the most extreme, discerning and demanding knife collectors and users on the planet.

KBD MASTER SERIES - SNODY KNIVES

Snody Boss
Leather Sheath

Blade Length: 3.5"
Blade Width: 1.0"
Overall Length: 6.563"
Sheath: 5101S

Made from 0.125"
S35VN stainless steel

Item: **#5101**
MSRP: **\$142.19**

Bonus Set of Purple Handles,
550 Cord & Bead

Snody Big Boss
Leather Sheath

Blade Length: 4.563"
Blade Width: 1.563"
Overall Length: 9"
Sheath: 5102S

Made from 0.188"
S35VN stainless steel

Item: **#5102**
MSRP: **\$195.79**

Bonus Set of Purple Handles,
550 Cord & Bead

Snody Snake Charmer
Hard Plastic Sheath

Blade Length: 2.313"
Blade Width: 1.0"
Overall Length: 6.5"
Sheath: 5103S

Made from 0.125"
S35VN stainless steel

Item: **#5103**
MSRP: **\$103.79**

Bonus Items: 550 Cord & Bead

Snody Administrator
Hard Plastic Sheath

Blade Length: 2"
Blade Width: 1.0"
Overall Length: 5.125"
Sheath: 5106S

Item: **#5106BP**
MSRP: **\$11.59**

Available in Blister Pack Only.

KBD MASTER SERIES - DOZIER DESIGN

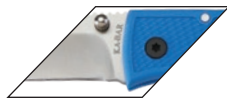

KBD
MASTER SERIES

» DOZIER
DESIGN «

As the founder of his own company for producing custom-made knives, Bob Dozier has been an icon in the knife making community since the 1960s.

The Dozier designed products are known for clean, straight forward lines at reasonable prices.

KA-BAR® ACCESSORIES

KA-BAR®
Lake Effect
Ice Scraper

Ultramid® ice scraper makes short work of cleaning ice off your windshield and can be used alternately as a self-defense tool.
Blade Width: 0.938"

Item: #9906
MSRP: \$8.32

KA-BARLEY
Bottle Opener

Made of GFN-PA66 and featuring the traditional KA-BAR oval-shaped handle, the KA-BARLEY makes light work of prying off bottle caps.

Item: #9907
MSRP: \$8.32

KA-BAR®
Spork

Made from food and water approved Grilamid. Equipped with a fork/spoon combo and has a 2.5" plastic serrated knife in the handle. The Tactical Spork weighs 0.1 lb.

Item: #9909
MSRP: \$8.32

NEW

KA-BAR®
Chopsticks

Made from food and water approved Grilamid. Overall Length: 9.5"

Item: #9919
MSRP: \$8.32

#9915

KA-BAR® Retro Posters

Inspired by World War II propaganda posters, these designs are perfect for your dorm, work shop, home office or man cave.

Pack features all four poster designs. Each poster measures 24" x 30".

Item: **#9915**
MSRP: **\$20.00**

#1431

Dome Presentation Case

Dimensions:
17.313" x 6.375" x 5.125"
Weight: 2.6 lb
Display any KA-BAR®
Fighting/Utility knife
up to 13".

Knife sold separately.

Item: **#1431**
MSRP: **\$96.53**

#1437

Walnut Presentation Case

Dimensions: 14.875" x 5.875"
Weight: 2.6 lb
Display any KA-BAR® up to 13".

Item: **#1437**
MSRP: **\$96.53**

KA-BAR® GLOSSARY OF TERMS

1095 Cro-Van Steel

Easy to sharpen, plain carbon steel used in knife making. Proven to be one of the most popular steels used in KA-BAR® Knives.

440A Steel

A high-carbon stainless steel used in many American production knives.

American Hone

Operated in the same building as Union Cutlery. R. Emerson Brown was president.

Blister Pack

A cardboard backed clear-front packaging option that allows products to be hung on peg boards for retail merchandising.

Brown Brothers

Brothers Wallace and R. Emerson Brown are considered the founders of KA-BAR®. Brown Bros. was their first cutlery business.

Clam Pack

A clear plastic packaging option that allows products to be hung on peg boards for retail merchandising.

Cryogenic Quenching (CR)

The process of freezing blades to improve blade performance.

D2 Steel

A high-carbon, high-chrome tool steel often used for blanking dies. This steel has excellent edge holding ability but is very difficult to process.

Danforth Brown

Son of Wallace Brown. President of KA-BAR® most notably during WWII.

Epoxy Powder Coating

A coating process that protects blades from corrosion and also makes them non-reflective.

Flat Ground

A grind that tapers from the top of the blade down to the cutting edge. Also known as a "V" grind.

Full-Length Tang

Extension of the blade steel that runs completely through the handle to the end of the knife.

Full Tang

A tang that shows all around the handle of the knife between two pieces of handle material.

Fuller or Blood Groove

A longitudinal groove on the blade of a knife.

G10

An extremely durable material made of woven fiberglass soaked in epoxy resin, then highly compressed and baked.

Game Hook

Also known as a gut hook, this blade shape is best for opening the flesh of game.

Grilamid FWA

Food and water approved polymer (plastic).

Glass-Filled Nylon (GFN-PA66)

Material used to make sheaths. Nylon is reinforced with glass particles and other materials to provide strength and durability while still allowing some flexibility.

Guard

Also known as a hilt, is the piece of steel that separates the handle and the blade. Serves to keep the hand from slipping on the blade when cutting. Can be single or double.

Hollow Ground

The ground surface of the blade is concave. Used to create a fine cutting edge.

John Brown

Father to Wallace and R. Emerson. Also involved in their cutlery businesses.

Kraton G® Thermoplastic Elastomer

Referred to simply as Kraton® or Kraton G®, is a man made material resembling rubber that can be molded into knife handles. Provides a non-slip grip. Trademark of Kraton Polymers Group of Companies.

Lockback

A folding knife that has a lock release on the back of the handle.

Manufacturer's Suggested Retail Price (MSRP)

The price at which the manufacturer recommends retailers sell their product. Some sellers may sell above, at, or below this price. This is not determined by the manufacturer.

Micarta®

A man made material, made by layering resin and cloth. Used to make very fine knife handles. Westinghouse trademark.

MOLLE

An acronym for Modular Lightweight Load-Carrying Equipment.

Powdered Metal

A process used to make shaped metal pieces. Fine metal particles are molded under pressure and then fused under high heat. Also known as sintered metal.

Rockwell Hardness (HRC)

An industry scale used for measuring the hardness of blade steel. The higher the reading, the harder the steel. Written as HRC or RC followed by a range of numbers.

Side Lock

Also known as a linerlock. A locking mechanism that features a tab cut out of the liner which is used as a stop to lock the blade in an open position. To close, the liner tab is pushed back to its original position.

Swedge

A faux double edge on the blade of a knife. Excellent for reducing the weight of the blade and balancing.

Tidioute Cutlery Company

Was created out of other failed cutlery companies. Wallace Brown would become head of the company shortly after its creation.

Ultramid®

Trade name for hard plastic-like material used to make handles and other products requiring a more rigid stability.

Union Razor

The cutlery sales company of Wallace Brown.

Union Cutlery

The name that replaced the former Tidioute Cutlery Company.

Zytel®

A glass-filled nylon material used in making handles for knives. DuPont trademark.

New items are noted in bold • "Weight" indicates bulk knife weight in pounds. Does not include sheath or packaging. • Blade Width is measured at widest point of blade. • Blade thicknesses noted are +/- .003 to .006.
Clean-made US products were measured before processing. • Cro-Van = Chrome Vanadium • SS = stainless steel • CR = Cryogenically quenched stainless steel • TPR = Thermoplastic resin
CP or Clam Pack = plastic shell packaging for hanging merchandise. • BP or Blister Pack = cardboard backing with clear front for hanging merchandise.

KA-BAR® WARRANTY, CARE AND STORAGE

LIMITED LIFETIME WARRANTY

KA-BAR Knives, Inc. (the “Company”) warrants, to the original purchaser of the knife only, that this knife will be free from defects in material and craftsmanship under normal use and maintenance for the lifetime of the original purchaser. This Limited Warranty does not apply to any failure of, defect in, or damage to the knife caused by neglect, normal wear and tear, or by improper use, including throwing the knife, batoning with the knife, using the blades as a can opener, chisel, pry bar, screwdriver, digging tool, or for any heavy work for which the knife was not designed.

If the knife fails to satisfy this Limited Warranty, the Company will repair or replace the knife or substitute a knife of comparable value, at the Company’s option, and such repair, replacement or substitution shall constitute the sole remedy for any failure of the knife to satisfy this Limited Warranty or any implied warranty (ies) of the Company. In order to have a Limited Warranty claim evaluated by the Company, you must return the knife, at your own expense and risk, to KA-BAR Knives, Inc., at 200 Homer Street, Olean, NY 14760, attention Customer Service Department. Please include with the returned knife a brief written description of any claimed defect(s) in or failure(s) of the knife. Any returned knife determined by the Company to not be eligible for repair, replacement or substitution under the terms of the Limited Warranty will be returned to the Owner.

THE COMPANY MAKES NO EXPRESS WARRANTY OR REPRESENTATION WHATSOEVER OF OR WITH RESPECT TO THE KNIFE OTHER THAN THE FOREGOING LIMITED WARRANTY, AND ALL SUCH OTHER EXPRESS WARRANTIES ARE HEREBY EXPRESSLY EXCLUDED. ANY IMPLIED WARRANTIES OF THE COMPANY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS, ARE LIMITED IN DURATION TO THE DURATION OF THIS LIMITED WARRANTY. THE COMPANY WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, AND ALL SUCH DAMAGES ARE EXPRESSLY EXCLUDED.

Some states do not allow limitations on how long an implied warranty lasts, or exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Caring for your KA-BAR®

Wipe blades after use with a dry, soft cloth. If knives are exposed to salt water, wash with mild dish detergent, rinse with tap water, then wipe with a dry, soft cloth.

Storing

Treat blade with a light coating of mineral oil before storing in a dry area separate from its sheath. If possible, store in paper sleeve provided with the knife at purchase.

Sharpening

Keep knives sharp by touching up edges as needed. Most KA-BAR® knives can be sharpened using an Arkansas stone or commonly available sharpening system. Most knives can easily be touched up using a coarse or hard stone.

When bringing back a very dull edge, a coarse or hard stone should be used first, followed by a finer, softer stone.

Knives made with D2 steel require diamond or ceramic sharpeners. Knives should at no time be sharpened on a belt sander or bench grinder. These machines ruin a factory-sharpened edge.
